BRICK

Description

Very thick PU plotter cut material, with polyester backing.

Despite the outstanding thickness, the material grants easy cutting, weeding and

application and a high washing resistance.

Average film thickness: 1000 micron

Usage informations

Due to the many different base materials available on the market, the following

instructions are given as a guideline only: Plotter settings (eg. with ROLAND GX24) Blade: new for high thickness materials

Minimum cutting pressure: 150 gf

Transfer setup

Temperature: 155 °C (311°F)

Time: 20 seconds

Pressure: medium (3:4 bar)

Procedure

N.B.: due to the heat sensitivity of the film, it is necessary to preheat the plates

for 20 seconds at 155°C before starting the production.

Mirror cut the material

Weed the exceeding material

Place the material on the garment with its polyester backing

Heat apply

Remove the support when really cold

Certifications

The product is REACH compliant.

The product is certified Öko-Tex® Standard 100 Class II

Suitable textiles

Cotton, polyester, blends of these materials or Elastan (not suited for treated and dye sublimation fabrics)

Washing instructions

Wait 24h after the heat transfer

60°C - inside outDo not use bleach or other aggressive chemical agents.

Dry clean: **no** Tumble dry: **yes**
